

Establishing a Connection with Gate and BitGo Go Network

Access global liquidity without moving assets from regulated, insured custody

OFF-EXCHANGE SETTLEMENT

Gate and BitGo Go Network Off-Exchange Settlement enables you to keep your assets secure in regulated custody (insured, bankruptcy-remote) with BitGo while trading with Gate. You may easily allocate and de-allocate assets for trading on Gate via the BitGo platform. You will not need to deposit or hold funds directly on our partner exchanges to trade. This minimizes counterparty risk, asset commingling risk and increases capital efficiency.

STEP 1

Register for an account at Gate and complete KYB verification. Gate's official website is: www.gate.com.

Do not deposit anything into the newly created account. The balance needs to be 0.

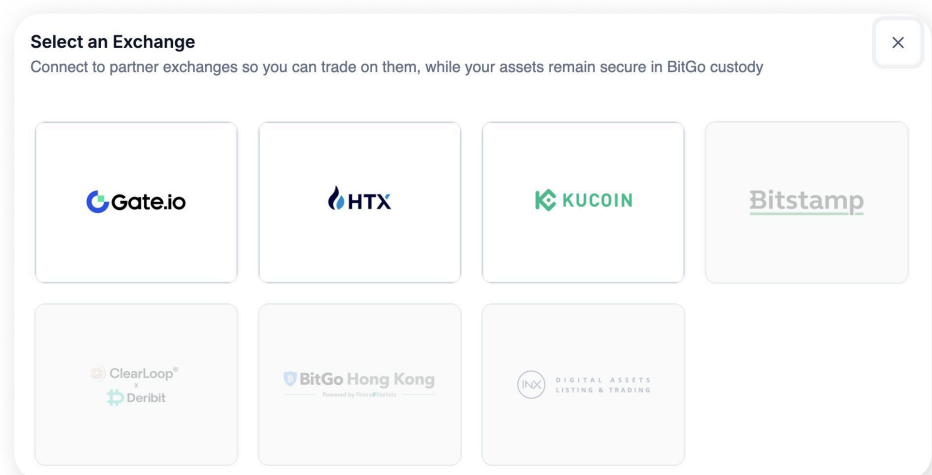

STEP 2

Gate will generate and provide a dedicated binding token. This token is only used to bind the Gate account. Once the binding process is complete, this token will not be required.

To receive a binding token, please email support-bitgo@gate.com.

STEP 3

Access your BitGo account via the [BitGo platform](#), go to the "Allocate" section and click "Add Connection." From the exchange list, select "Gate." A pop-up window will then appear.

Establishing a Connection with Gate and BitGo Go Network

Access global liquidity without moving assets from regulated, insured custody

STEP 4

Paste the being token from Gate into the “Connection Token” field. Then, enter your wallet password and click “Submit”.

STEP 5

Gate will validate the request by checking with the main account is valid (if KYB was passed) and whether the account balance is zero. Once this information is verified, the binding will be complete.

Your Gate binding token cannot be used to bind any other BitGo account once complete. Any subsequent allocations, deallocations or settlement will not be related to or require the binding token.

ABOUT BITGO

BitGo (NYSE: BTGO) is the digital asset infrastructure company delivering custody, wallets, staking, trading, financing, stablecoins, and settlement services from regulated cold storage. Since 2013, BitGo has focused on accelerating the transition of the financial system to a digital asset economy. BitGo maintains a global presence and multiple regulated entities, including BitGo Bank & Trust, National Association, a federally chartered digital asset bank. Today, BitGo serves thousands of institutions, including many of the industry's top brands, financial institutions, exchanges, and platforms, and millions of investors worldwide.

ABOUT GATE

Established in 2013, Gate is a leading global cryptocurrency exchange, serving over 3000 million users worldwide. The platform offers secure, efficient, and user-friendly digital asset trading services, supporting spot trading, futures trading, margin trading, and financial products for more than 3,800 cryptocurrencies. This provides users with a comprehensive and diverse range of digital asset trading and blockchain application services.
