Establishing a Connection with HTX and BitGo Go Network

Access global liquidity without moving assets from regulated, insured custody

OFF-EXCHANGE SETTLEMENT

HTX and BitGo Go Network Off-Exchange Settlement enables you to keep your assets secure in regulated custody (insured, bankruptcy-remote) with BitGo while trading with HTX. You may easily allocate and de-allocate assets for trading on HTX via the BitGo platform. You will not need to deposit or hold funds directly on our partner exchanges to trade. This minimizes counterparty risk, asset commingling risk and increases capital efficiency.

STEP 1

Register for an account at HTX and pass the personal L3 or institutional L2. HTX's official website is: www.htx.com.

STEP 2

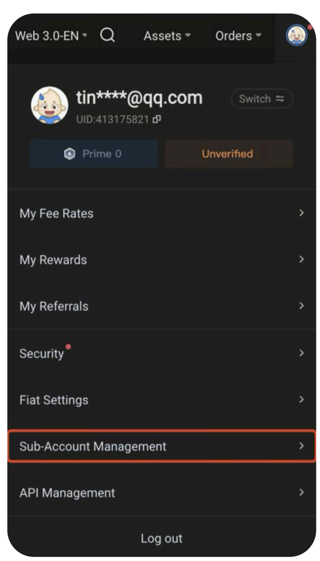
Send an "enabling requirements" email to escrow@htx-inc.com and sign the "Connected Service Agreement."

Please include the following information in the email:

- HTX UID
- Name of applicant or institution
- Region of applicant
- That you are looking to connect to the **BitGo Singapore** custody platform

STEP 3

Log in to your HTX account and navigate to the **Sub-Account Management** page. Click "Create Sub-Account," then select "Create BitGo Sub-Account." Please note that you can currently create only one BitGo sub-account.

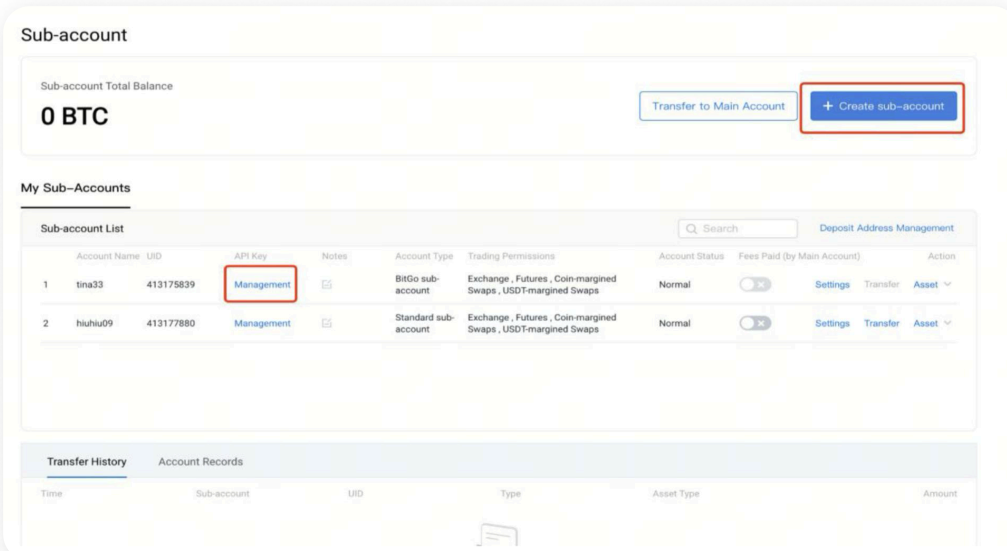


Establishing a Connection with HTX and BitGo Go Network

Access global liquidity without moving assets from regulated, insured custody

STEP 4

Once the BitGo sub-account is created, go to the API Key section on the **My Sub-Accounts** page and click “Management” to access the API Key page.



STEP 5

On the API Key page, the linking status will be visible. Click “Link” and copy the **Connection Token** shown in the pop-up window.

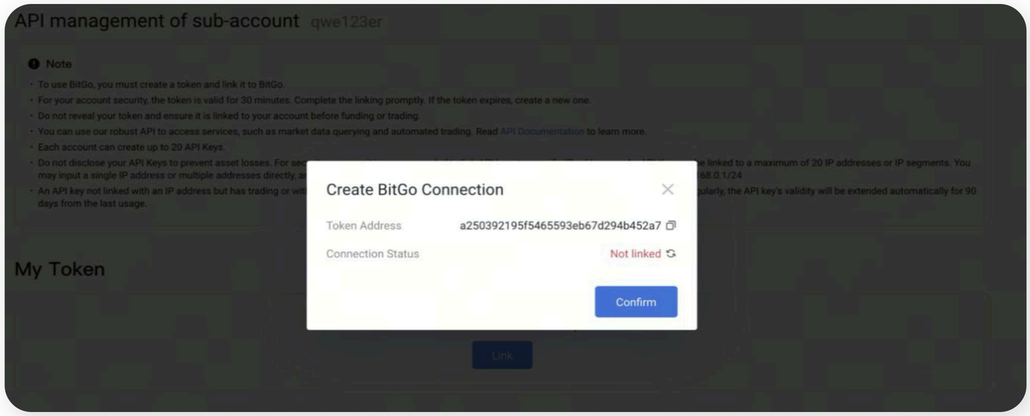
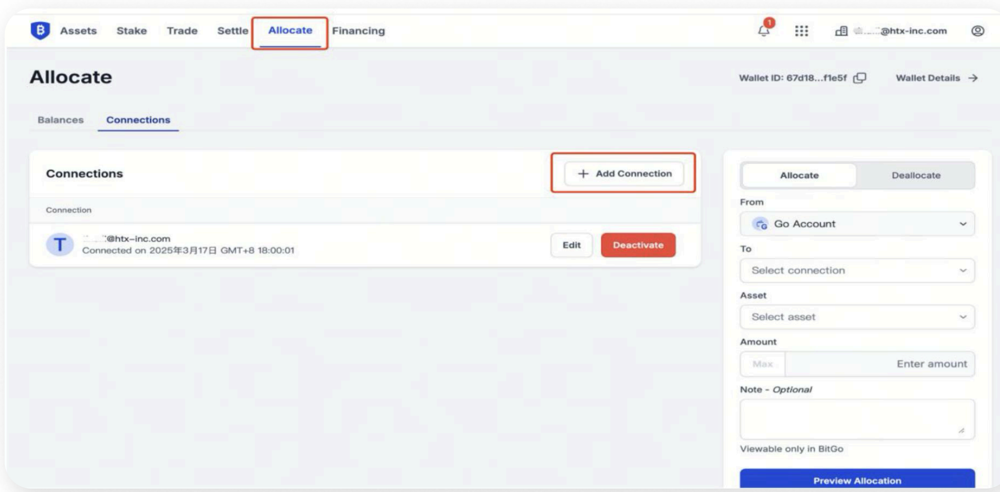
STEP 5 CONTINUED



STEP 6

Access your BitGo account via the [BitGo platform](), go to the “Allocate” section and click “Add Connection.”



STEP 7

From the exchange list, select “HTX.” A pop-up window will then appear.

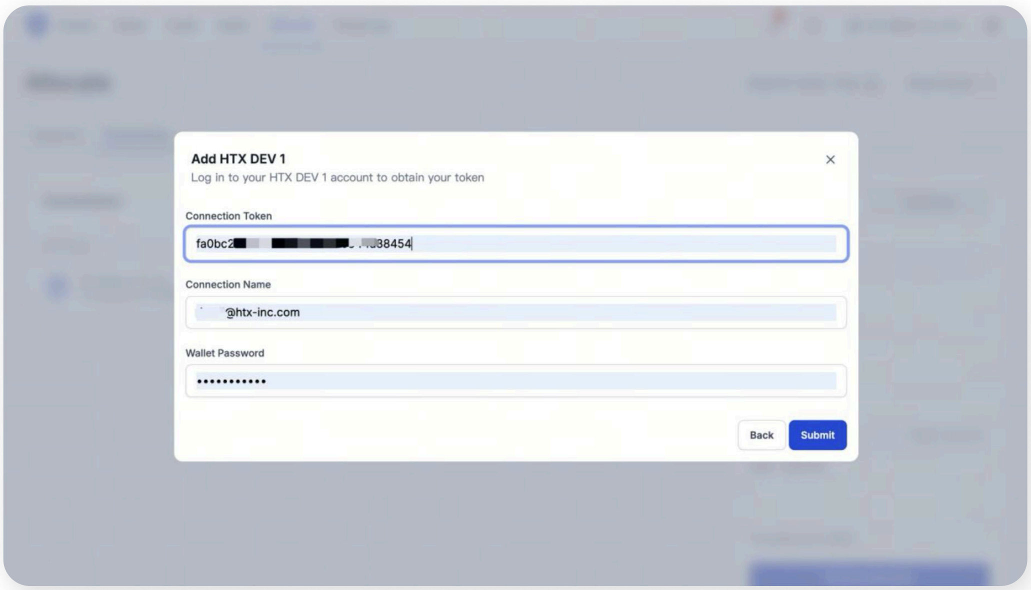
STEP 8

Paste the token copied from HTX into the “Connection Token” field. Then, enter your wallet password and click “Submit”.



START TRADING

The connection is now established, allowing you to fund your BitGo account and begin trading on HTX.

Please reach out to your BitGo or HTX point of contact with any questions or concerns.

ABOUT BITGO

BitGo (NYSE: BTGO) is the digital asset infrastructure company delivering custody, wallets, staking, trading, financing, stablecoins, and settlement services from regulated cold storage. Since 2013, BitGo has focused on accelerating the transition of the financial system to a digital asset economy. BitGo maintains a global presence and multiple regulated entities, including BitGo Bank & Trust, National Association, a federally chartered digital asset bank. Today, BitGo serves thousands of institutions, including many of the industry's top brands, financial institutions, exchanges, and platforms, and millions of investors worldwide.

ABOUT HTX

Founded in 2013, HTX has evolved from a virtual asset exchange into a comprehensive ecosystem of blockchain businesses that span digital asset trading, financial derivatives, research, investments, incubation, and other businesses. As a world-leading gateway to Web3, HTX harbors global capabilities that enable it to provide users with safe and reliable services. Adhering to the growth strategy of "Global Expansion, Thriving Ecosystem, Wealth Effect, Security & Compliance," HTX is dedicated to providing quality services and values to virtual asset enthusiasts worldwide. To learn more about HTX, please visit HTX Square or https://www.htx.com/, and follow HTX on X, Telegram, and Discord. For further inquiries, please contact glo-media@htx-inc.com.
